

SUPREME
PRODUCTS

your perfect solution!

ARCO® has created a special range of products based on the market knowledge we have gained over the last 50 years. These products comprise formulations with high quality branded ingredients, which support you with evidence from scientific facts. By using the brand name of the ingredients and the positive EFSA statements on your product, it provides you a clear benefit on the business market.

ARCO® assists you by presenting **high quality product formulations** as a final product solution, ready to market!

The following formulation has been chosen because of the **high scientific** evidence of the ingredient, KanekaQH™, the first supplemental form of bio-identical Ubiquinol ever developed. The soft gel capsule is the ideal protection system for this highly sensitive active ingredient.

CELL ENERGY CAPSULES

Ingredients	per 2 capsules (recommended daily dosage)	RDA*
Ubiquinol	100 mg	**
Vitamin B5	6.0 mg	100%
Vitamin B6	1.4 mg	100%
Vitamin B12	2.5 µg	100%

* RDA (EC recommended daily allowance)
** no RDA established

Of course ARCO® can also provide you with several other formulations for example in the special field of **Energy Health**.

Since our foundation in 1959 we are a competent partner for contract manufacturing of drugs, dietetic products and nutritional supplements in soft gel capsules.

As a family-owned company we assume responsibility towards our customers, suppliers, employees and the society. The values quality, flexibility, loyalty and responsibility are regarded as a matter of course of our philosophy of encapsulated care.

INFORMATION

Active people have a high demand of energy. It is converted by the human cells from food into body's energy ATP. To cover the high energy demand, respectively to regenerate the cells faster, the application of Ubiquinol, L-Carnitin, Vitamin B12 and further B-Vitamins is reasonable. These lead to reduction of tiredness and exhaustion and contribute to energy metabolism.

KanekaQH™ is Ubiquinol, the reduced, active antioxidant form of Coenzyme Q10. Introduced in 2006, KanekaQH™ is the first supplemental form of bioidentical Ubiquinol ever developed and is manufactured exclusively by Kaneka Corporation. The adequate pharmaceutical form has been shown to be the soft gel capsule. This dosage form and its production allows to protect this highly sensitive active ingredient against oxygen and light.

EFSA STATEMENTS

- **Vitamin B6** contributes to normal energy-yielding metabolism.
- **Vitamin B5** contributes to normal mental performance and can contribute to the reduction of tiredness and fatigue.
- **Vitamin B12** contributes to normal red blood cell formations and fatigue and contributes to normal neurological and psychological functions.

KANEKA QH UBIQUINOL STRUCTURE FUNCTION STATEMENTS

- Ubiquinol is essential for the production of cell-energy*
- Supports the production of energy (ATP)*
- Helps to protect against oxidative stress*
- The most-known phenolic Antioxidant*
- Supports the cardiovascular system*

*These statements have not been evaluated by the Food and Drug Administration. The product is not intended to diagnose, treat, cure or prevent any disease.

BENEFITS

Hereby this formulation support you with clear market benefits

- Ideal protection system
- High bioavailability
- Branded Ingredients
- EFSA statements

PRODUCT FACTS

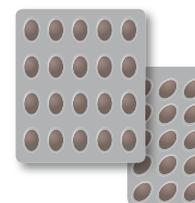

- Size and shape: 10 min oval
- Colour: caramel
- Gelatine: bovine//fish
- Shelf life: 24 months (15 – 25°C; 35 – 50% rH)

PACKAGING SOLUTIONS

Bulk

MOQ: 5x12.000 capsules

Blister

Blister foil: PVC 250 µm or PVC/PVDC foil 40 g/m² transparent
 Alufoil: 20 µm silver or gold
 Format: 106x75 mm | 56x96 mm
 20 caps per blister | 15 caps per blister

Bottle

Units: 60 // 120 caps
 Size: 75 // 150 ml
 PET bottle + labelling

Package

Folding box: 300 g / m² (coloured)
 Leaflet: 60 g / m²
 Box units: 60 // 120 caps
